Criterion – VI

6. Governance, Leadership and Management

6.1 State the Vision and Mission of the institution

Vision

The Maharshi Dayanand Saraswati University aspires for an enlightened India by imparting holistic education. To achieve this pristine goal it envisions:

- Breaking the shackles of the present teaching system, where different departments virtually serve as separate compartments without any cross flow of information and thus making students learn science and technology and simultaneously be able to dig deeper in the mental realms of existence to earn themselves a more or less stress free term of life on this planet. Similarly an exposure of science to students of other subjects will make them more pragmatic and analytical in approach to the life and its problems.
- Imparting diversity, specialty and specialization of subjects as per the requirements of today's technology driven enterprises as we understand that the civilizations move on the wheels of technology.
- Fulfilling entire learning requirements of the society- our symbiotic partner, by making intensive and visible efforts to sensitize the society through students towards the issues of social discontent and injustice and work for a peaceful, dynamic and forward moving society.
- Reducing social marginalization by generating self esteem and sense of participation amongst the downtrodden.
- Bringing together, India as well as its Diaspora by fulfilling their cultural and religious needs to make them emotionally one entity.
- Creating new opportunities for the youth by imparting them the knowledge of the language, culture, believes, religion and rituals of neighbouring countries and the countries with Indian Diaspora. This in turn will enhance business opportunities and exchange of ideas and create socio-cultural bonhomie for a progressive and peaceful humanity.

Mission

To contribute to the super ordinate goal of nation building through realization of civilizational roles and civilizational goals in a global setting by creating and managing knowledge for social evolution, by inculcating values among youth and creating a climate of innovation and learning addressed to all segments of society.
